System Architecture Diagram

(Please upload your Diagram in PNG format you may use <https://draw.io/> as your tool to create it.)

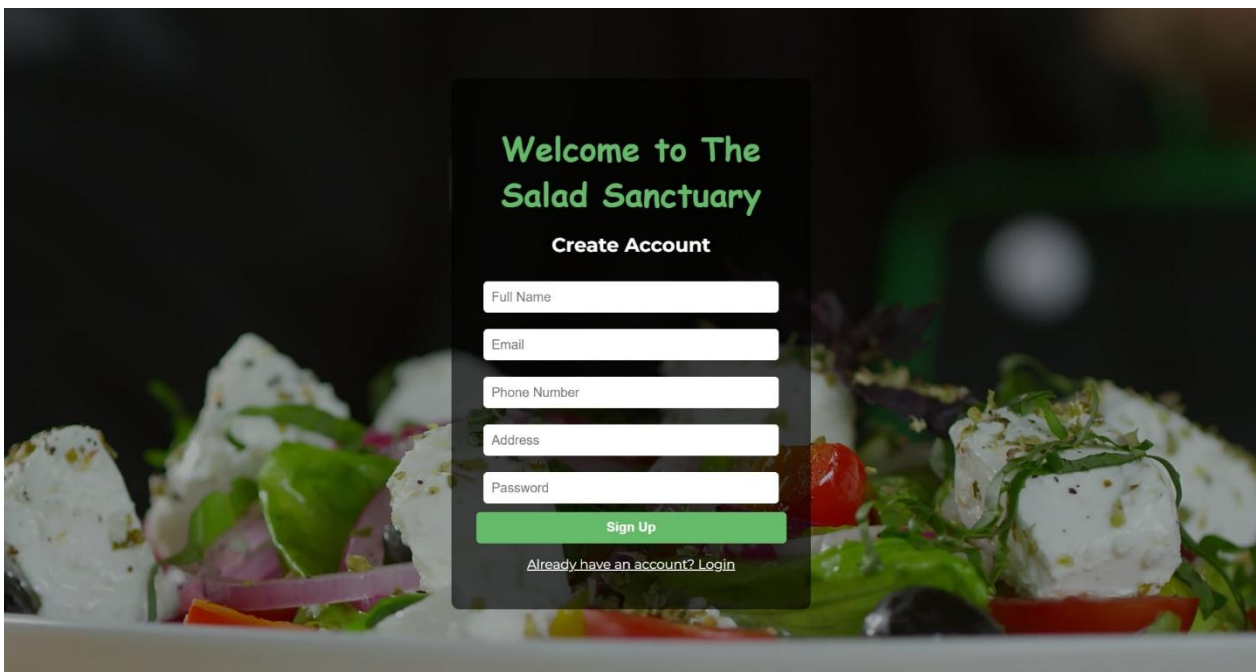

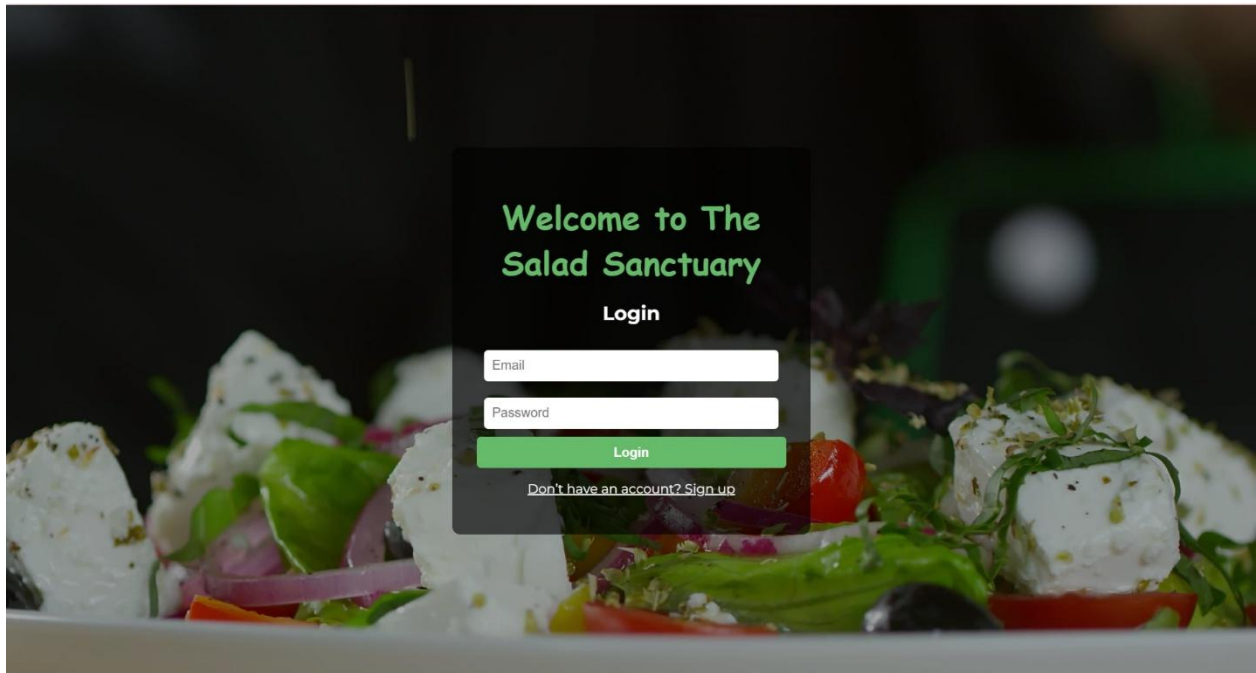

System Architecture Diagram for The Salad Sanctuary

The diagram shows how The Salad Sanctuary website operates by connecting the **frontend (user interface)**, **backend (PHP & MySQL)**, and **database**. Customers interact with the web pages to browse salads, add items to their cart, and place orders. The backend processes these requests, communicates with the MySQL database to retrieve or store order data, and updates the interface accordingly. Admin users can log in to manage the menu, view customer orders, and update inventory.

User Interface

(Attach the screenshot of your UI each project specification indicating the description of it. You may add according to your list of specification)

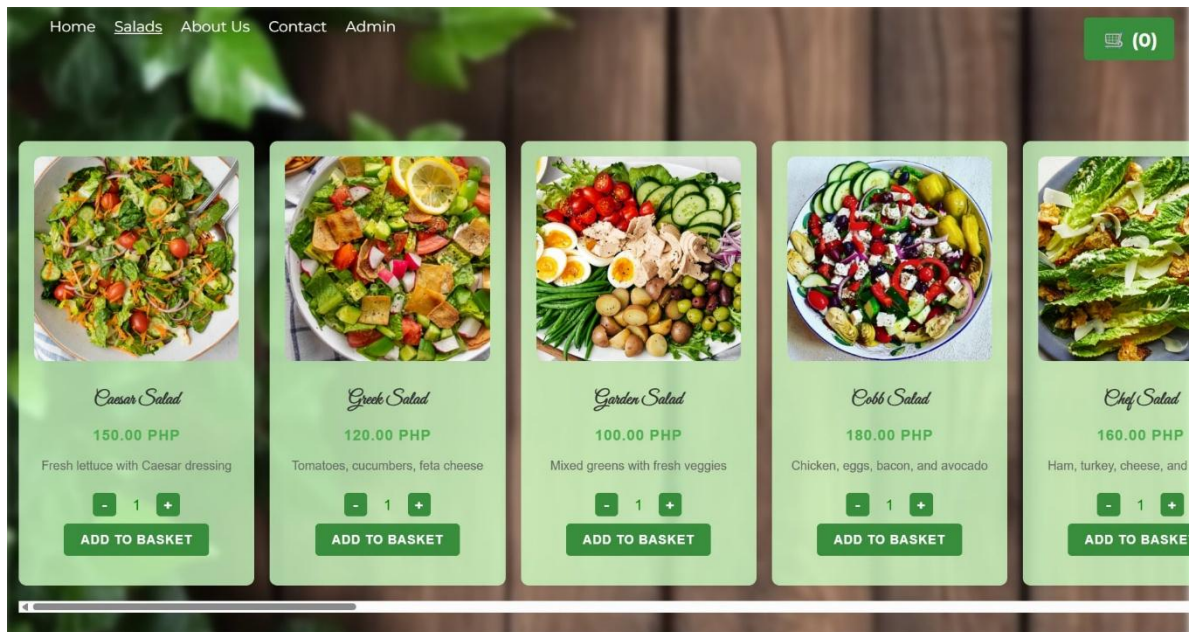

User Interface 1

Login and Sign Up (index)

Homepage with featured salads, navigation bar, and quick access to categories. Welcomes customers and highlights best-sellers with navigation to categories and menu.

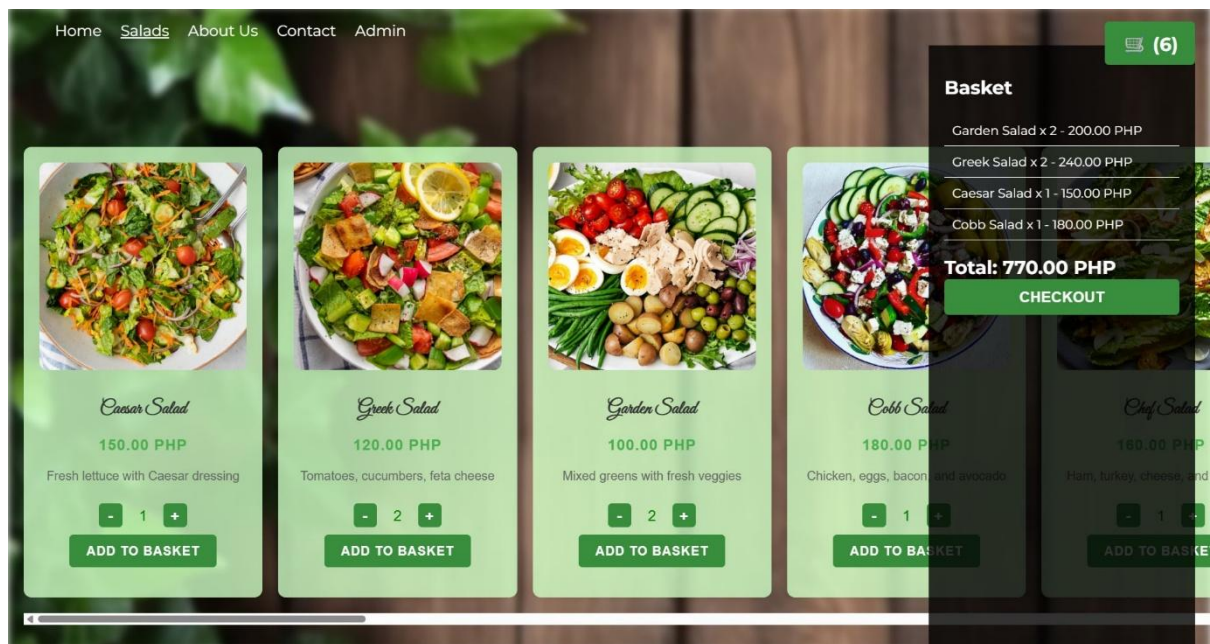

User Interface 2

Home Page

Homepage with featured salads, navigation bar, and quick access to categories. Welcomes customers and highlights best-sellers with navigation to categories and menu.

User Interface 3

Order Process

Shows all items the customer has added to their cart with quantity, price, and total cost.

User Interface 4

Checkout

Name:
Chloe De Leon

Delivery Address:
Tondo Manila

Phone Number:
09123456789

Email:
clongdeleon@gmail.com

Orders:
Garden Salad - Quantity: 2
Greek Salad - Quantity: 2
Caesar Salad - Quantity: 1
Cobb Salad - Quantity: 1

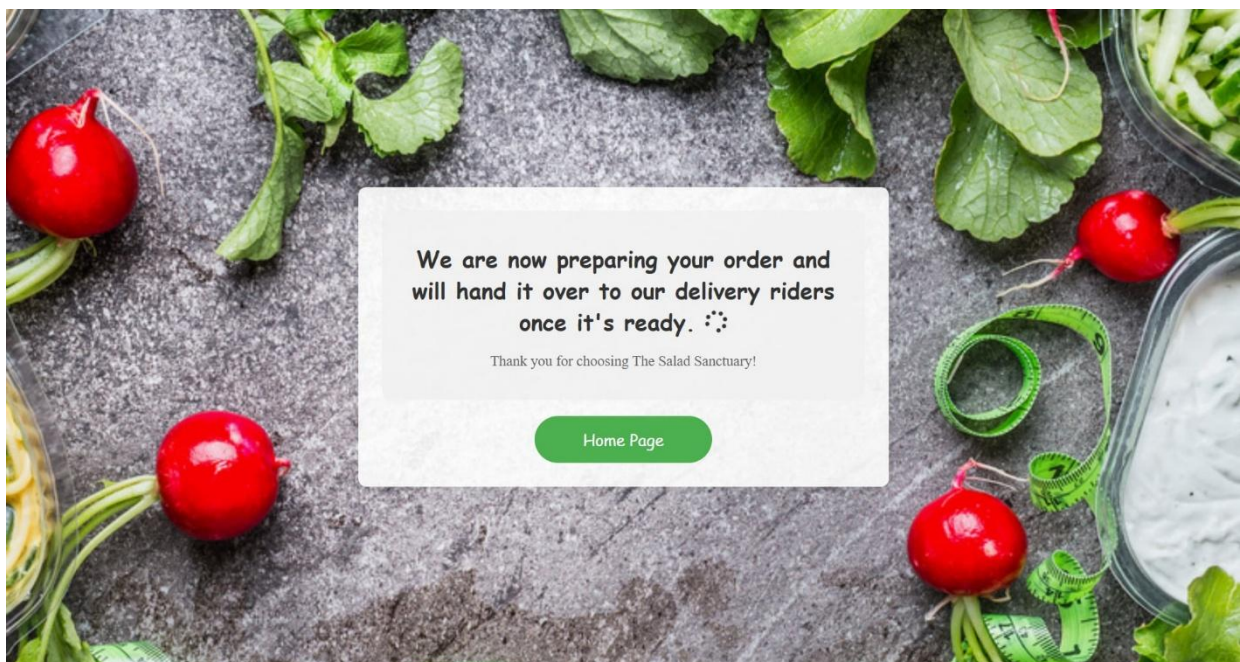

Payment Method:
☒ COD
☐ GCash
☐ Bank

[Place Order](#)

Checkout Page

Collects customer details (name, contact, delivery address) and confirms the order. Collects customer information and confirm the order with a "Place Order" button.

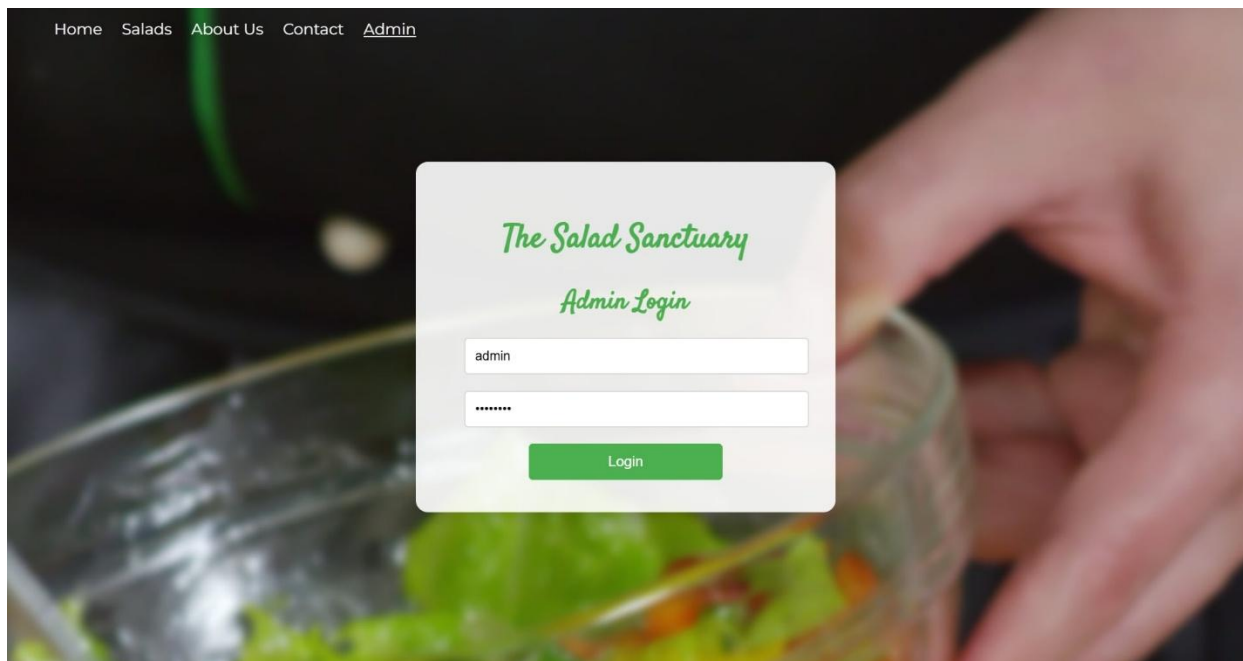

User Interface 5

Order Confirmation Page

A confirmation message that the order has been acknowledged.

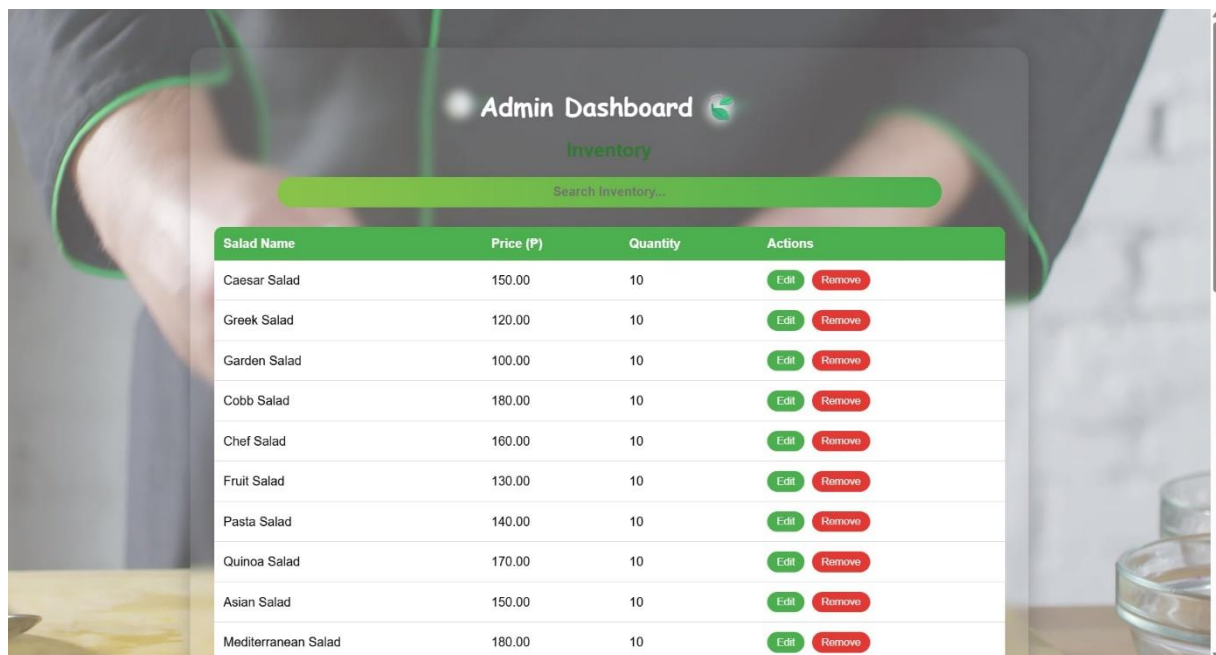

User Interface 6

Admin Login Page

Allow only authorized admin users to log in. Admin login page for authorized users to access the admin panel.

User Interface 6

Admin Inventory Page

Displays menu management options and sales overview. Enables admins to add new menu items to the database. Admin interface for adding new salads or menu items into the database.

User Interface 7

The interface shows a list of salads at the top with their prices and quantities, and a table of orders below. The background is a blurred image of a person's hands preparing food.

Salad Name	Price (P)	Quantity	Edit	Remove
Kale Salad	160.00	10	Edit	Remove
Caesar Salad	150.00	16	Edit	Remove

Salad Name Price (P) Quantity [Save Salad](#)

© 2025 The Salad Sanctuary. All rights reserved.

Feedback Page

This is where the customers can leave feedback such as their experience, suggestions, and overall rating to the food and service.

User Interface 9

About Us Page

Displays the static About Us page with information about The Salad Sanctuary's mission and values.

Code Snippet

(Attach the screenshot of your sample Flutter user interface code snippet. **NOTE:** Just the Model itself.)

Code Snippet 1

```

The Salad Sanctuary > index.php
1  <?php
2  session_start();
3  include 'db_connect.php';
4
5  $message = "";
6
7  // Handle POST requests
8  if ($_SERVER["REQUEST_METHOD"] == "POST") {
9
10     // LOGIN PROCESS
11     if (isset($_POST['login'])) {
12         $email = $conn->real_escape_string($_POST['email']);
13         $password = $_POST['password'];
14
15         $result = $conn->query("SELECT * FROM users WHERE email='$email'");
16
17         if ($result && $result->num_rows > 0) {
18             $user = $result->fetch_assoc();
19
20             if (password_verify($password, $user['password'])) {
21                 $_SESSION['user_id'] = $user['id'];
22                 $_SESSION['fullname'] = $user['fullname'];
23                 header("Location: home.php");
24                 exit;
25             } else {
26                 $message = "Incorrect password.";

```

About Us

Displays the static About Us page with information about The Salad Sanctuary's mission and values.

Project Rubric

Course Code	CTWBCOML	Course/Subject	WEB COMMERCIALIZATION AND ECOMMERCE
Term/Academic Year	1ST TERM/A.Y. 2025-2026		
Group Name	GIRLYPOPS		
Members	Surname, First Name MI. (Alphabetical)		Signature
	DE LEON, Ma. Christina Chloe R.		
	MORILLA, Daniella Marie B.		
	PARMAN, Bea Mae D.		
	PASIWEN, Troy T.		
	RONQUILLO, Guillian Marie H.		

Project Component	SO	Unsatisfactory (0)	Needs Improvement (1)	Satisfactory (2)	Proficient (3)	Exceptional (4)	PTS
User Interface, Design & Navigation	SO6	Unattractive, outdated design; inconsistent layout; non-responsive; confusing navigation.	Basic design with minor inconsistencies; limited responsiveness; partially intuitive navigation.	Visually acceptable, consistent layout; responsive on most devices; easy navigation.	Attractive, modern design; fully consistent across all pages; highly responsive; intuitive navigation.	Professional, modern UI with excellent visual appeal, seamless responsiveness, and flawless navigation experience.	
Functionality & Core Features		Major features missing or non-functional (e.g., browsing, search, cart, checkout).	Some core features functional but with major bugs or incomplete implementation.	All core features functional (browsing, search, cart, checkout) with minor issues.	Fully functional features with smooth interactions and proper error handling.	Exceptional functionality with additional enhancements beyond requirements; flawless performance.	
Security & Data Management		No HTTPS; weak or no authentication; poor data protection; vulnerable to attacks.	Basic security measures implemented but with noticeable vulnerabilities.	Secure authentication, basic encryption, and partial protection against attacks.	Strong security with HTTPS, encryption, and defenses against common attacks; efficient database handling.	Advanced security, full compliance with best practices, optimized database queries, high data integrity, and large dataset handling.	
Product & Order Management		Admin cannot manage products/orders; product details incomplete; poor categorization.	Basic product/order management with limited functionality.	Functional product and order management with correct details and category organization.	Efficient product and order management with smooth updates and well-organized categories.	Advanced product and order management with bulk operations, automation, and optimal category/tagging.	
Documentation, Code Quality & Presentation	SO3	No or poor documentation; messy, unreadable code; unclear presentation.	Basic documentation; code readable but lacks structure; weak presentation skills.	Adequate documentation; code mostly organized; clear presentation with minor gaps.	Good documentation; clean, well-structured code; confident and clear presentation.	Comprehensive technical/user documentation; excellent code quality; engaging and professional presentation with confident Q&A.	
Total Score and Feedback							
<input type="checkbox"/> Exceptional	20	Outstanding performance in all project components with minimal to no issues				Total Points Earned	
<input type="checkbox"/> Proficient	16-19	Good performance in most project components with minor issues.					
<input type="checkbox"/> Satisfactory	12-15	Acceptable performance in basic aspects with several issues.					
<input type="checkbox"/> Needs Improvement	8-11	Below-average performance with many issues.					
<input type="checkbox"/> Unsatisfactory	0-7	Poor performance with critical issues in most project components.
